

Wood and Gallery Series Analog Clocks

Bluetooth® Wireless Technology

For any customer who requires time synchronization, the Bluetooth® Low Energy wireless technology solution is an uncomplicated, easy-to-install, product that continually and automatically recreates its own network. Competitively priced, Sync™ Bluetooth clocks with Bluetooth Wireless Technology are available solely through Primex, the sync time leader, and our certified partner network. OneVue Sync clocks with Bluetooth wireless technology require a minimum of one OneVue Sync Bridge to operate.

Wood Series Analog Clocks

High-tech accuracy is presented in a traditional look with the Wood Series Clocks. Ideal for offices, libraries, conference rooms, and entryways, the solid hardwood frame is available in a variety of finishes. Dial faces are available with Arabic numerals on ivory dials or Roman numerals on antique dials. Available in a variety of colors, sizes, and dial options including custom dials to showcase your facility name or logo.
